DUDLEY ROAD EAST - OLDBURY – WEST MIDLANDS – B69 3EB

We would like to introduce ourselves as Specialist Mechanical Handling Engineers.

Marwel Conveyors and its associated companies have been trading for over 60 years. In its time it has built an enviable reputation for the quality and durability of its products.

DRUM MANUFACTURE

We have supplied many of the leading drum manufacturers with Marwel high speed drum handling systems both used for manufacture and painting.

Great attention has been paid to achieving a long working life with the minimum of maintenance, and free use is made of heavy duty components, particularly air cylinders which are of the very best quality.

Control Systems

Marwel design and manufacture control systems in house. Control systems with intrinsically safe proximity switches, give full automation and complete sequence interlocking to provide a high standard of safety and freedom from accidental jamming.

Conveyors

Marwel powered roller tracks, twin chain conveyors, rocker stops, brake and discharge units, up-enders, downenders, cross transfer units, hold-units, oven conveyors, rotating units etc. can all form part of a completely integrated and automated system.

Painting – Drums

Marwel have considerable experience in painting Drums both horizontally and vertically. Conveyors that incorporate spray booths give high output and high quality.

Assembly Lines

If you have a requirement for specialised handling equipment to and from assembly lines then we can provide a solution.

If you have any queries or require more information please do not hesitate to contact one of our sales team or visit our website.
