## Nuclear Waste Conveyors

Marwel Conveyors have been designing, manufacturing and fitting specialised conveyors for over 60 years.

We were involved in the supply of handling equipment during the build of the Hartlepool & Heysham reactors. More recently we have designed and manufactured a variety of nuclear waste conveyors.

All conveyor systems are custom designed and manufactured to suit individual requirements.

If you have any queries or require more information please do not hesitate to contact one of our sales team or visit our website.
