DUDLEY ROAD EAST - OLDBURY – WEST MIDLANDS – B69 3EB

## MARWEL HIGH SPEED PALLET INSPECTION AND REPAIR SYSTEM

- One Inspector can sort up to 600 pallets per hour for RFU and DAM.
- One Inspector can support up to 8 repair Benches.
- Inspect and Repair rates up to 450 pallets per hour.
- Flexible manning ~ dependent upon the Damage Rate more benches can be manned.
- Inspector can be used for Minor Repairs.
- Additional sort categories (e.g. Contaminated or Major Damage) can be provided.
- Reduces Fork Lift Truck Movements.
- Encourages Team Co-operation ~ team targets can easily be set.
- Job rotation - to prevent operators becoming bored and reduce operator fatigue.
- Small plant footprint ~ system suits small buildings.
- Simple operation ~ good reliability.
- Easy access for rubbish removal, timber supply and scrap wood removal.
- If specified the equipment can be single sided for location against a wall.
- Equipment is of modular construction for ease of relocation.
